

PATS – Monument Peak Trail

3 miles roundtrip from Granite Dells Rd access.

Level of Difficulty – Easy

The Monument Peak Trail begins as a small quad-size trail to the north of a large open turn-around area on the east side of Granite Dells Road, approximately 3.3 miles from the Highway 260/Granite Dells Road intersection. There is some area for parking, although this area is often muddy.

This is an extremely popular route for motorized vehicles, but all trail-users will enjoy the views. The Loop Trail follows the base of Monument Peak, covering territory in southeast Payson and the western portion of Star Valley. Users will pass through juniper thickets interspersed with pleasant open meadows, and a large portion of the trail follows a seasonal streambed. There are beautiful views of Monument Peak, especially from the northern portion of the Loop.

Driving Directions

From 87 N (Beeline Highway) to Monument Peak Trail

- From the Highway 87 & Highway 260 intersection, turn right (east) and head 0.3 miles to Granite Dells Road, past Safeway.
- Turn right and head east on Granite Dells Road for 3.3 miles until the open turn-around area for parking on the east side of Granite Dells Road.
